Consultative fora:

Drug Education Practitioners Forum

The purpose of the forum is to enhance and promote quality in drug education through support for the professional development of drug education practitioners working in formal and informal settings. The forum communicates at meetings (three times a year) and via e-mail, as well as using the distribution list to circulate various relevant documents and news. There are currently nearly 100 members. Membership is free and open to all those involved in supporting and providing drug education in formal and informal settings.
