

## Links home

### Links from the UK and around the world

There are literally thousands of sites on the web containing information about drugs. Below is just a sample of what is available. We have tried to include the most informative sites which often have good links to other drug-related sites. However, linkage to a site does not indicate endorsement by Drugscope.

Parents and teachers are advised that some sites and newsgroups may contain material inappropriate for young children. Those concerned about web access by young people could download one of the Internet 'filtering' services such as [CyberPatrol](#).

 [UK](#)

 [Europe](#)

 [USA and Canada](#)

 [Rest of world](#)

If you know of any links you think should be included here please contact [Jackie Buckle](#)
